

I attended my first NSW Cobra Club social function with My wife Martha and daughter Louise on Australia Day. I would have taken the Cobra, but it's only half built at the moment.

The Australia Day Picnic at Bayview was well organised and also very well attended. I counted 23 Cobra's there during the afternoon. The activities went well and everyone appeared to have a great time.

As new members since just before Christmas, it was nice to meet new people. We found everyone to be really friendly and quite interested in my build project.
