

ROF RUN Thursday 14th May 09.

What a perfect day for a Cobra run. Not a cloud in the sky and around 22 degrees. Twenty starters were counted which included 5 visitors and a warm welcome to James Tracey and his brother Peter who drove all the way from Bathurst in their Cobra to have lunch with us at the Mooney Mooney Club on the Hawkesbury. After a hold up of 45 minutes on the Forest Way waiting for the victims of a motor accident to be cut out from their cars those coming from the Northern Beaches went straight to Mooney Mooney arriving at the same time as those who started from the advertised meeting point at Berowra. The Central Coasters arrived shortly afterward and we all made it on time for our table booking. We were seated on the verandah overlooking the Hawkesbury River - perfect, had good table and drink service and told many tales of the true and legendary past relating to Cobras and all other worthwhile topics. All too quickly it was time to leave and we enjoyed a spirited run home on the old Pacific Highway.
